

REMARKS

Status of the Application

Claims 1-29 are currently pending in this application. In the February 28, 2005, Office Action, the Examiner stated that the application contains claims directed to the following patentably distinct subcombinations:

- I. Claims 1-9, 11-18, and 24-29 , drawn to a method and apparatus for managing supply chain projects, classified in class 707, subclass 10;
- II. Claim 10, drawn to a method for monitoring the progress of projects by setting the indicator as complete or incomplete, classified in class 707, subclass 10; and
- III. Claims 19-23, drawn to a method of assigning project level security for the project management function based on the assigned project role, classified in class 707, subclass 9.

The Examiner further stated that restriction to one of the aforementioned subcombinations is required for prosecution on the merits, citing M.P.E.P. § 806.05(d). In particular, the Examiner stated that a different search is required for each group noted above.
